

Office Frontage

Case Study

Awarded the contract to **assess** the site and provide a **recommendation** tailored to the Managing Director's requirements.

Roots shoots leaves sourced and delivered suitable pots and plants to **compliment** and **enhance** the presentation of the newly acquired **office frontage**.

John Mortimer Lettings Office

Bracknell, Berkshire

Initial Site Appraisal

- Assessment of concrete surface to office entrance.
- Removal of weeds and debris from pathways, car park and communal areas.
- Cleaning and removal of silt built-up in drainage channels.
- Agreed with Managing Director an appropriate budget and suggested design options.
- Prepared a convenient schedule for the commencement and final delivery of pots and plants.
- Took photos of current site and prepared diagrams for the delivery of a recommendation report.

Project Implementation

- Prepared and installed concrete platforms, enabling pots to sit on level ground.
- Sourced company colour themed pots and suitable plants within budget.
- Drilled drainage holes in pots to prevent stagnant water build-up and subsequent damage to plants.
- Secured pots using anchor bolts to deter vandalism and thieves.
- Plants selected for their drought resistance and hard-wearing nature.
- Top dressing finish to pots using pea shingle, suppressing weed growth and contrasting dark and light colours.
- Consideration always taken towards the overall presentation of the site to promote company image.

Contact roots shoots leaves today for a free, no obligation site inspection and recommendation report.
